Care center

## OBJECTIVES

The customer need a live chat support system that is available around-the-clock for visitors. As a result, everything can be inquired about at any time. Additionally, they want the site to be multilingual so that users may feel comfortable using it. Additionally, the client wishes to switch the color scheme to dual tones.

## SOLUTIONS

For live chat support, we install a customized A.I. chat bot based on the demands of the customer. Additionally, we included a quick inherent plugin for multilingual so that it functions flawlessly in any language. Change the color scheme to pagoda blue and pink for a calming effect.
